

# RIZE SUSTAINABLE FUTURE OF FOOD UCITS ETF

FACTSHEET | December 2024

All data information collected as of 31 December 2024

## FUND SUMMARY

The Rize Sustainable Future of Food UCITS ETF (FOOD) seeks to invest in companies that potentially stand to benefit from the accelerating transition to more sustainable food production systems and consumption patterns and thereby safeguarding our nature and ecosystems, promoting transparency and safety and encouraging plant-based consumption in order to help reduce greenhouse gas emissions.

## WHY FOOD?

### → Favourable Growth Prospects

FOOD is Europe's first sustainable food ETF, and provides investors with exposure to companies that are innovating across the food value chain to build a more sustainable and equitable food system.

### → Powered by Tematica Research®

FOOD is purpose-built in collaboration with Tematica Research, a thematic research firm based in Washington, D.C., and leverages their unique insights and proprietary classification system of companies that are innovators across the food value chain.

### → Unconstrained Approach

FOOD's composition transcends classic sector, size and geographic classifications by tracking a global theme.

### → ETF Efficiency

In a single trade, FOOD delivers access to dozens of companies that are favourably positioned to ride the tailwinds of the sustainable future of food theme.

### → Multi-award-winning ETF

Best ESG Investment Fund: Thematic (2021 ESG Investing Awards), Most Innovative ETF of the Year (ETF Stream Awards 2021), and Most Innovative Sustainable & ESG ETF Launch (Investment Week ESG Investing Awards 2021).

## RISK FACTORS

- All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed.
- The Fund may be subject to the risks associated with companies operating in the food and agriculture technology sectors including rapidly changing technologies and obsolescence of existing products, fierce international competition, the loss of patent, copyright and trademark protections and evolving industry standards. Companies will also be subject to external risk factors impacting the broader food and agriculture markets related to changing and unpredictable weather conditions (including drought and flooding) and fluctuating commodity prices.
- FOOD also invests in small publicly-traded companies which may be less mature and therefore more vulnerable to adverse business or economic events and greater and more unpredictable price changes than larger companies, the food & agriculture sector as a whole or the stock market as a whole.
- Individual companies are subject to intense competition that may negatively impact their revenues and market values and therefore FOOD's value.
- FOOD invests in global equity securities. As such, there is a risk of loss arising from exchange rate fluctuations or exchange control regulations.
- Other: (1) Third-party service providers (such as the ICAV's depositary) may go bankrupt and fail to pay money due to FOOD or return property belonging to FOOD. (2) If the Index provider stops calculating the Index or if FOOD's license to replicate the Index is terminated, FOOD may have to be closed. (3) It may not always be possible to buy and sell FOOD's Shares on a stock exchange or at prices closely reflecting the Net Asset Value. (4) There is no capital guarantee or protection on the value of FOOD and investors can lose all the capital invested in FOOD. (5) Please refer to the "Risk Factors" section of the ICAV's Prospectus and the Fund Supplement.
